# Nature Journal

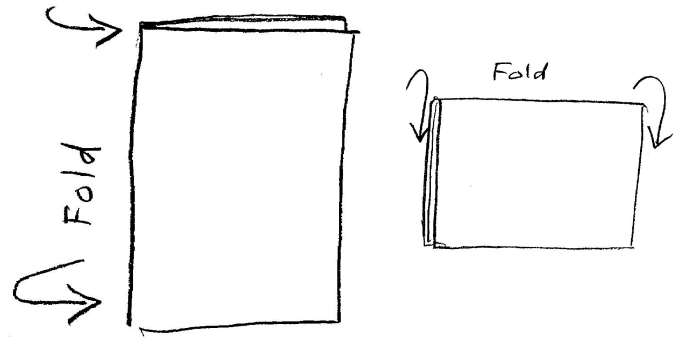

DIARIA DE LA NATURALEZA

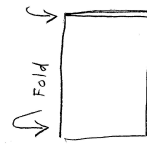

## Making a tiny book for Nature Journaling

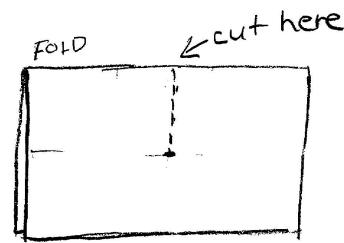

Print the journal page (not this page, but the first one). Fold paper in half and then in half again, like a greeting card. Make sure to match all the sides and smooth over the folds.

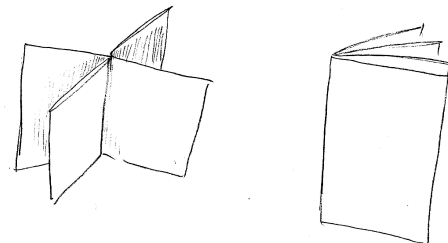

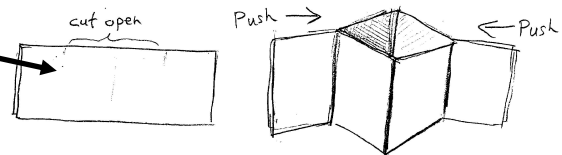

Fold again about the size of playing cards.

Unfold two times, so your paper is a half sheet with four sections. Find the side that is *folded*, not loose edges, and cut from the center of the folded edge to the middle of the page.

Open the page and fold it long-wise (hotdog). There will be four sections in a row. Hold the two on the outside and push toward the center. It will open like an X, then fold it all together in a booklet.
