

## **Let America Be Fair**

by Rowan Darwood

Let America find a way to be fair

Let America be the team on top

Let America be like the perfect hockey game

Passing the puck

Gliding across the ice like freshly cleaned glass

Working together

No goals scored against us

This is America to me

Let it be the United

Let us find a way to make America equal between all races and colors

America will be fair if we let America be the dream the dreamers dreamed

Let it be that place where everything is one

O, let my land be a space where each of us feels safe and protected

Crowned at the top of all that is great

That is where America should be

I am the great

I am the united

I am the best

I am the strong

Fighting for equality and fairness

I am the one who wants this for the world

We can make America great again!

Let America be the flawless hockey team
