

Let America be Happy again

By: Andy Garcia

Let America be happy again

Let America be a place for joyful cheers after an economic crisis
when the poor woman can't pay her house bills after losing her job
and her kid feels sad not getting the toy he wanted

Let it be the place where you can laugh when your ice cream falls out the
cone

dimples popping out like groundhogs

Let it be the place where cloudy days feel brighter than the perfect smile on
a sunny day

Seeking the snack that smiles back like goldfish

(America always has a helping hand.)

Let America be the dream the dreamers dreamed

Let it be that the sad are gifted with mad love like treasure from the deep sea
Where hate dies and joy rises through the ground we plant our seeds
Where we celebrate the dead and cherish the living

(There's never been a smile during the mile to success)

O, let my land be land where my children test positive in happiness
crowded with the cherishable lives who make them laugh and giggle
