

Let America be...

By Sam Miranda

Let America be a place not plagued by discrimination against uncontrollable features

Let America be “free” again

Let it be the wonderful place we were promised so long ago

Let it be the land of better opportunity; the land where one can live peacefully

To live without chasing after a fleeting hope

A place of joy, a place to share emotions with the ones you care about

Let America be a safe place for all of it's residents

A place that doesn't have tyrant presidents

Let America be a safe place where people don't have to live in fear over the features out
of their control.
